

The Réserve du Pré Carré comes mainly from a plot of Merlot situated on a steep slope and from young vines planted in 1998.

### GENERAL FACTS

Les Conseillans covers twenty hectares of woodland, vineyards and fields in the heart of the Premières Côtes de Bordeaux, a few kilometres from the village of Saint-Caprais-de-Bordeaux.

In 2011, the Chateau was acquired by Bruce Jackson, an American wine enthusiast, and his wife Irina Krasovskaya. Over the next three years, Bruce and Irina, restored the Chateau, renovated the vineyards and completely modernized the technical facilities.

### VINTAGE & VINEYARD

The 2019 vintage enjoyed a warm, dry summer, providing excellent ripening conditions for the grapes. The autumn period was also dry and quite hot.

The vineyards of Chateau Les Conseillans stand on a terroir of gravelly and clay soils mostly facing south. It is divided into 14 distinctive plots with different varietal mix and age. We believe that the vineyard is the major contributor to the wine's quality and character. Because of this we try to limit our interventions to the most classical of French vineyard techniques. We avoid weed-killers and use pheromones to fight against insects. Farming for flavour and picking on the optimum day are essential.

### WINE MAKING

The agriculture and the date of the harvest are essential for the quality of a wine. Hand picking, gentle de-stemming, and thorough sorting are the primary practices. Every different grape varietal is fermented separately in small cement tanks. The extraction of the cap is a mix of pumping over and "pigeages" technique. The Pré Carré Cuvée is matured in cement tanks to promote the fruit.

### Vintage

2019

Surface	5Ha81
Appellation	Côtes de Bordeaux
Géology	Gravels on Clay
Varietal	65% Merlot 20% Cabernet Sauvignon 8% Malbec 7% Cabernet Franc
Density	5600 plants/Ha
Average year	35 years old

Vats	Cement
Harvest	Hand Picking
Date	October 2019
Vat Maturing	12 Months
Yield	45Hl/Ha
Blend	90% Merlot 10% Cabernet Franc

Bottling Date	August 3rd 2021
Production	580 cases

Alcohol	14,00%
PH	3,2
Sugar level	0,2
